Gina Donisi  
Owner  
The Fence Company  
807 Loveland Madeira Road  
Loveland, Ohio 45140

To whom it may concern:

As Director of Hospitality Services at Mercy Health West Park, I am pleased to recommend to you The Fence Company. I have worked closely with The Fence Company over the past couple of years on several fence installation projects and have been very impressed with their professionalism, work ethic and management skills.

I had the pleasure of working directly with The Fence Company's Owner, Gina Donisi, and found her and her team incredibly knowledgeable in the industry and appreciated the personal ownership approach that was taken during each project. Her team is always professional they keep me informed of their progress and bring to my attention issues that need to be addressed. Gina and her installation crew were very sensitive to the safety and schedule needs that accompany medical facility projects and were quick to accommodate any of our requests. I would, without reservation, recommend The Fence Company for any fence related project and will continue to consider them for our future projects. If you have any question please contact me directly.

Sincerely,

A handwritten signature in black ink that reads "Tim Virgin".
